## PROFILE

Hello, I'm Arunkumar, a passionate frontend developer specializing in React.js, with expertise in end-to-end UI automation testing. I excel at building modern, responsive, and user-friendly web interfaces, while ensuring seamless functionality through comprehensive testing. My focus is on delivering scalable applications that provide exceptional user experiences and maintain high standards of quality.

## WORK EXPERIENCE

Software Engineer

**D-Aces India Pvt Ltd | Chennai**  
**Jan 2023 - Present**

- Proficient in developing web applications using HTML, CSS, JavaScript, Bootstrap, and React.js.
- Experienced in building responsive and user-friendly front-end interfaces with React.js and Material UI.
- Skilled in version control using Git for collaborative development and project management.
- Expertise in UI automation testing using Playwright to ensure seamless functionality and high-quality user experiences.
- Hands-on experience with design tools like Visily for wireframing and UI prototyping.
- Strong understanding of modern web development concepts such as component-based architectures, state management, and routing.
- Successfully contributed to multiple projects, delivering scalable and efficient web applications in a fast-paced environment.
- Capable of troubleshooting and resolving front-end issues with a focus on performance and user experience optimization.
- Proficient in integrating third-party libraries and frameworks like Bootstrap and Material UI to enhance the look and feel of web applications.
- Committed to continuous learning and staying updated with the latest trends and advancements in front-end development and UI automation testing.
